

Beef Heart Infusion

Cat. No.: B1449984 | Pack size: 100g; 250g | Storage: Room temperature, protected from light

Product Information

Item	Details
Available Pack Size(s)	100g; 250g
Specifications & Purity	BioReagent, for microscopy
Stability and Storage	Store at room temperature long term (36 months). Store in the dark.
Storage Conditions	Protected from light, Room temperature
Shipped In	Normal

Product Description

Beef Heart Infusion Powder is a yellow powder prepared from fresh beef hearts through fat removal, digestion, filtration, concentration and spray drying. It is used for the preparation of microbial culture media, mainly providing nitrogen sources and growth factors for microbial growth.

Performance Indicators

Test Item	Standard Requirement
Appearance	Pale yellow powder or fine granules with a characteristic odor.
Clarity	The aqueous solution is clear and transparent, without alkaline precipitate or phosphate precipitate.
pH	5.0-7.0
Total Nitrogen	≥12.0%
Amino Nitrogen	≥2.8%

Test Item	Standard Requirement
Residue on Ignition	≤15.0%
Moisture	≤5.0%

Precautions

1. Take precautions against dust during weighing. Wear a mask to avoid respiratory discomfort.
2. Tighten the bottle cap immediately after use of the powder to prevent moisture absorption and caking. Store in a dark and dry place.
3. The shelf life of unopened products is three years. The shelf life of opened products varies depending on storage conditions.
