## Artificial Colonic Fluid (Sterile)

Cat. No.: A1509634 | Pack size: 500 mL | Storage: Room temperature

### Overview

---

Artificial Colonic Fluid (Sterile) is a solution designed to simulate the composition and pH value of natural colonic fluid.

Primarily composed of phosphates, ammonia water and other components, Artificial Colonic Fluid (Sterile) has undergone sterile processing. This reagent is exclusively intended for research purposes and not applicable for clinical diagnosis or any other uses.

### Operating Procedures (For Reference Only)

---

Perform the operation in accordance with the specific experimental requirements.

### Precautions

---

1. Artificial Colonic Fluid (Sterile) is a sterile solution. If sterility is required, sterile operation shall be strictly followed.
2. Store Artificial Colonic Fluid (Sterile) in a sealed container. It should be used immediately once opened; otherwise, its effectiveness will be compromised.
3. Please use the reagent as soon as possible after opening to avoid affecting the results of subsequent experiments.
4. For your safety and health, wear a lab coat and disposable gloves during operation.

### Specifications

---

Attribute	Value
Synonyms	Artificial Colonic Fluid
Specifications & Purity	BioReagent, sterile
Stability And Storage	Store at room temperature long term (12 months).
Storage Conditions	Room temperature
Shipped In	Normal

Attribute	Value
Grade	BioReagent, sterile

## Contact & Global Offices

Whether you have a technical question, need help with a quotation, or want to inquire about an order, our regional teams are ready to assist. Please contact the office for your region; for general inquiries, the North American office is the corporate primary.
