

Pepstatin A Solution

Cat. No.: S1518362 | Pack size: 1 mL | Storage: -20°C; protected from light

Product Information

Attribute	Value
Pack Size(s)	1 mL
Synonyms	Pepstatin Solution Pepsin Inhibitor Solution
Specifications & Purity	BioReagent, 1 mg/mL
Stability And Storage	Store at -20°C long term (18 months). Avoid freeze/thaw cycle. Store in the dark.
Storage Conditions	Protected from light, Store at -20°C
Shipped In	Ice chest + Ice pads. This product requires cold chain shipping. Ground and other economy services are not available.
Grade	BioReagent

Product Description

Protease inhibitors can bind to specific groups in the active centers of protease molecules, reducing or eliminating enzyme activity without denaturing the proteins. This effectively inhibits protein degradation and maintains native protein-protein interactions. Common protease inhibitors include EDTA, E-64, NaVO₃, Bestatin, Leupeptin, Pepstatin A, Aprotinin, etc.

The Pepstatin A Solution (1 mg/mL) is primarily composed of pepstatin A. It is EDTA-free and provided as a concentrated solution. It specifically inhibits pepsin. Its working concentration ranges from 1 to 10 µg/mL. It is suitable for protein extraction from mammalian tissues and cells, facilitating efficient obtainment of target proteins. The extracted products can be used in subsequent experiments such as Western Blot, Co-Immunoprecipitation (Co-IP), etc.

This reagent is for research use only. Not for use in diagnostic procedures or other purposes.

Procedure (For Reference Only)

1. Briefly centrifuge the tube before opening to spin down any liquid adhering to the walls or cap.
2. Add this product to the required volume of Lysis Buffer and dilute to the working concentration (1–10 µg/mL) before use.

Notes

1. This product is mildly irritating. Handle with care and avoid repeated freezing and thawing.
2. For your safety and health, please wear laboratory appropriate attire and disposable gloves while handling reagents.
3. Use the reagent as soon as possible after opening to ensure optimal performance.

Contact & Global Offices

Whether you have a technical question, need help with a quotation, or want to inquire about an order, our regional teams are ready to assist. Please contact the office for your region; for general inquiries, the North American office is the corporate primary.
