

Catalog # C134895 Chlorotris(triphenylphosphine)cobalt(II), min. 98%

Technical Notes:

1. Cobalt(I)-catalyzed, stereoselective olefination of alkylzinc reagents with aryl aldehydes.
2. Reagent for the reductive radical dimerization of 3-haloindoline derivatives.
3. Cobalt-catalyzed, asymmetric addition of silylacetylene to 1,1-disubstituted allenes.
