Catalog # D282018 6,6'-[[(1R,3R)-1,3-Dimethyl-1,3-propanediyl]bis(oxy)]bis[4,8-bis(t-butyl)-2,10-dimethoxy-bibenzo[d,f][1,3,2]dioxaphosphepin, min. 95% (R,R)-Chiraphite

Note: Sold in collaboration with Chirotech for research purposes only. U.S. Patent No. 5,491,266.

Technical Note:

1. Useful catalyst for the asymmetric hydroformylation of olefins under mild conditions. High enantio- and regioselectivities have been demonstrated for several prochiral vinylarenes, and a wide variety of functional groups can be tolerated.
